

JORDAN-ELBRIDGE CENTRAL SCHOOL DISTRICT

January 17, 2019

Dear Parents,

In the interest of the students' health and wellness, I'm asking for your help. Specifically, I'd like you to have a conversation with your child/children about not using aerosol and pump products that contain a fragrance at school.

I'm making this request because there are students in the building who have multiple chemical sensitivities and who have recently experienced allergic reactions that required medical attention. As a result, we want to do all that we can to prevent any future episodes that would represent a health risk.

Feel free to call me directly should you have any questions and thank you for your anticipated cooperation.

Best regards,

Mark Schermerhorn
High School Principal
