

Public Employer Health Emergency Plan for **Jordan-Elbridge Central School District**

Approved Plan: February 4, 2021 (final)

Due on Website: April 1st, 2021

Posted on Website: February 26th, 2021

This plan has been developed in accordance with NYS legislation S8617B/A10832.

Promulgation

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable.

This plan has been developed with the input of the Jordan-Elbridge Teachers Association (JETA), the Jordan-Elbridge Local 200, the Jordan-Elbridge Administrator's Association, plus other non-represented staff, as required by the amended New York State Labor Law.

No content of this plan is intended to impede, infringe, diminish, or impair the rights of us or our valued employees under any law, rule, regulation, or collectively negotiated agreement, or the rights and benefits which accrue to employees through collective bargaining agreements, or otherwise diminish the integrity of the existing collective bargaining relationship.

This plan has been approved in accordance with requirements applicable to the agency, jurisdiction, authority, or district, as represented by the signature of the authorized individual below.

--

As the authorized official of the Jordan-Elbridge Central School District , I hereby attest that this plan has been developed, approved, and placed in full effect in accordance with S8617B/A10832 which amends New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable, to address public health emergency planning requirements.

Signed on this day:

By: James Froio

Title: Superintendent of Schools

Purpose, Scope, Situation Overview, and Assumptions

Purpose

This plan has been developed in accordance with the amended New York State Labor Law section 27-c and New York State Education Law paragraphs k and l of subdivision 2 of section 2801-a (as amended by section 1 of part B of chapter 56 of the laws of 2016), as applicable. These laws were amended by the passing of legislation S8617B/A10832 signed by the Governor of New York State on September 7, 2020, requires public employers to adopt a plan for operations in the event of a declared public health emergency involving a communicable disease. The plan includes the identification of essential positions, facilitation of remote work for non-essential positions, provision of personal protective equipment, and protocols for supporting contact tracing.

Scope

This plan was developed exclusively for and is applicable to Jordan-Elbridge CSD. This plan is pertinent to a declared public health emergency in the State of New York which may impact our operations; and it is in the interest of the safety of our employees and contractors, and the continuity of our operations that we have promulgated this plan.

Situation Overview

On March 11, 2020 the World Health Organization declared a pandemic for the novel coronavirus which causes the COVID-19 severe acute respiratory syndrome. This plan has been developed in accordance with amended laws to support continued resilience for a continuation of the spread of this disease or for other infectious diseases which may emerge and cause a declaration of a public health emergency.

The health and safety of our employees and contractors is crucial to maintaining our mission essential operations. We encourage all employees and contractors to use [CDC Guidance for Keeping Workplaces, Schools, Homes, and Commercial Establishments Safe](#). The fundamentals of reducing the spread of infection include:

- Using hand sanitizer and washing hands with soap and water frequently, including:
 - After using the restroom
 - After returning from a public outing
 - After touching/disposing of garbage
 - After using public computers, touching public tables, and countertops, etc.
- Practice social distancing when possible
- If you are feeling ill or have a fever, notify your supervisor immediately and go home
- If you start to experience coughing or sneezing, step away from people and food, cough or sneeze into the crook of your arm or a tissue, the latter of which should be disposed of immediately
- Clean and disinfect workstations at the beginning, middle, and end of each shift
- Other guidance which may be published by the CDC, the State Department of Health, or County health officials.

Planning Assumptions

This plan was developed based on information, best practices, and guidance available as of the date of publication. The plan was developed to largely reflect the circumstances of the current Coronavirus pandemic but may also be applicable to other infectious disease outbreaks.

The following assumptions have been made in the development of this plan:

- The health and safety of our employees and contractors, and their families, is of utmost importance
- The circumstances of a public health emergency may directly impact our own operations.
- Impacts of a public health emergency will take time for us to respond to, with appropriate safety measures put into place and adjustments made to operations to maximize safety
- The public and our constituency expects us to maintain a level of mission essential operations
- Resource support from other jurisdictions may be limited based upon the level of impact the public health emergency has upon them
- Supply chains, particularly those for personal protective equipment (PPE) and cleaning supplies, may be heavily impacted, resulting in considerable delays in procurement
- The operations of other entities, including the private sector (vendors, contractors, etc.), non-profit organizations, and other governmental agencies and services may also be impacted due to the public health emergency, causing delays or other disruptions in their services
- Emergency measures and operational changes may need to be adjusted based upon the specific circumstances and impacts of the public health emergency, as well as guidance and direction from public health officials and the governor
- Per S8617B/A10832, 'essential employee' is defined as a public employee or contractor that is required to be physically present at a work site to perform their job
- Per S8617B/A10832, 'non-essential employee' is defined as a public employee or contractor that is not required to be physically present at a work site to perform their job

Concept of Operations

The superintendent of Jordan-Elbridge CSD, their designee, or their successor holds the authority to execute and direct the implementation of this plan. Implementation, monitoring of operations, and adjustments to plan implementation may be supported by additional personnel, at the discretion of the superintendent.

Upon the determination of implementing this plan, all employees and contractors of Jordan-Elbridge CSD shall be notified by telephone, the district's website, and/or electronic mail notification, with details provided as possible and necessary, with additional information and updates provided on a regular basis. All staff will be notified of pertinent operational changes by way of telephone, email, and information posted on the district's website. Other interested parties, such as vendors, will be notified by phone and/or email as necessary. The Superintendent will maintain communications with the public and constituents as needed throughout the implementation of this plan.

The superintendent of Jordan-Elbridge CSD, their designee, or their successor will maintain awareness of information, direction, and guidance from public health officials and the Governor's office, directing the implementation of changes as necessary.

Upon resolution of the public health emergency, the superintendent of Jordan-Elbridge CSD, their designee, or their successor will direct the resumption of normal operations or operations with modifications as necessary.

Mission Essential Functions

When confronting events that disrupt normal operations, Jordan-Elbridge CSD is committed to ensuring that essential functions will be continued even under the most challenging circumstances.

Essential functions are those functions that enable an organization to:

1. Maintain the safety of employees, contractors, and our constituency
2. Provide vital services
3. Provide services required by law
4. Sustain quality operations
5. Uphold the core values of Jordan-Elbridge CSD

The Jordan-Elbridge CSD has identified as critical only those priority functions that are required or are necessary to provide vital services. During activation of this plan, all other activities may be suspended to enable the organization to concentrate on providing the critical functions and building the internal capabilities necessary to increase and eventually restore operations. Appropriate communications with employees, contractors, our constituents, and other stakeholders will be an ongoing priority.

Essential functions are prioritized according to:

- The time criticality of each essential function
- Interdependency of a one function to others
- The recovery sequence of essential functions and their vital processes

Priority 1 identifies the most essential of functions, with priority 4 identifying functions that are essential, but least among them.

The mission essential functions for Jordan-Elbridge CSD have been identified as:

Essential Function	Description	Priority
Communications	The Superintendent will lead all communications with all stakeholders to keep them informed on a weekly / bi-weekly basis.	1
Health & Safety	The district will review and consider the number of staff and students allowed to work in person safely. The following factors will be considered – CDC and DOH guidance, social distancing, personal protective equipment, safe transportation, hygiene practices, cleaning and disinfectant supplies, building safety and security, etc.	1
Teaching and Learning	To district will provide all students with a challenging educational program (in-person or remote)	1
Child Nutrition	The district will ensure students receive healthy nutritional meals consistent with USDA guidelines, whether learning in-person or remote.	1
Business Office / Payroll	The district will continue to run payroll for faculty and staff.	1
Transportation	The district will utilize transportation, as needed, and as they can do so safely.	2
Human Resources	The district will continue to operate its human resources department so that it can fill any faculty and staff positions as well maintaining benefits for all staff.	2

Technology	The district will provide all hardware and software for students and staff so that they may work in-person or remotely to provide a challenging educational program.	1
Athletics and Extracurricular	All athletics and extracurricular activities will be reviewed and implemented as long as they can be conducted in a safe manner and in accordance with NYS mandates. These may be conducted in-person or remote. This will be consistent with Section III Athletics and NYSPHSAA upon the approval by the Board of Education.	4
Social Emotional Well-Being	The district will prioritize and provide supports for the social emotional well-being of students and staff in order to create the mental, social, and emotional space for academic learning to occur.	1
Community and Family Engagement	The district will continue to create opportunities for families and the larger community to engage in the educational process.	2

Essential Positions

Each essential function identified above requires certain positions on-site to effectively operate. The table below identifies the positions or titles that are essential to be staffed on-site for the continued operation of each essential function. Note that while some functions and associated personnel may be essential, some of these can be conducted remotely and do not need to be identified in this section.

Essential Function	Essential Positions/Titles	Justification for Each
Health and Safety	<ul style="list-style-type: none"> Operations & Maintenance 	<ul style="list-style-type: none"> District buildings will need to be thoroughly cleaned and sanitized. District Properties will need to be maintained.
Days to Day Operations	<ul style="list-style-type: none"> Administration Clerical Driver/messenger 	<ul style="list-style-type: none"> Staffed as needed to ensure the district and buildings are running properly. At times, these employees may also work remotely.
Payroll	<ul style="list-style-type: none"> Business Administrator Payroll Clerk 	<ul style="list-style-type: none"> The district will continue to run payroll for faculty and staff.
Child Nutrition	<ul style="list-style-type: none"> Food Service Supervisor Food Service Workers Transportation SRO 	<ul style="list-style-type: none"> The district will ensure students receive healthy nutritional meals consistent with USDA guidelines, whether learning in-person or remote. SRO and Transportation: As needed depending on meal distribution.
AP/Purchasing	<ul style="list-style-type: none"> Business Admin Treasurer AP Clerk 	<ul style="list-style-type: none"> Continue to pay bills and order materials, as needed. May work remotely as allowed/permitted.

Technology Coordination	<ul style="list-style-type: none"> • Director of Technology • Lan Tech • Computer Service Assistant 	<ul style="list-style-type: none"> • Director of Technology will establish priorities for IT tasks and organize staff • IT Staff members will provide support in distributing and setting up hardware and software, network management, and help desk support.
Medical Distribution	<ul style="list-style-type: none"> • School Nurses • Building Admin 	<ul style="list-style-type: none"> • As needed to distribute prescriptions and/or supplies to families

Reducing Risk through Remote Work and Staggered Shifts

Through assigning certain staff to work remotely and by staggering work shifts, we can decrease crowding and density at work sites and on public transportation. The Superintendent and Board of Education will make the decision to work remotely. The superintendent will then inform the administrative team and respective principals, who will send out further communication.

Remote Work Protocols

Non-essential employees and contractors able to accomplish their functions remotely will be enabled to do so at the greatest extent possible. Working remotely requires:

1. Identification of staff who will work remotely (it may be determined that anyone who can work remotely will do so)
2. The technology department will set up a help line for troubleshooting while remote for both staff and students/parents
3. Approval and assignment of remote work
4. Equipping staff for remote work, which may include:
 - a. Internet capable laptop
 - b. Necessary peripherals
 - c. Access to VPN and/or secure network drives
 - d. Access to software and databases necessary to perform their duties
 - e. A solution for telephone communications
 - i. Note that phone lines may need to be forwarded to off-site staff

Staggered Shifts

Implementing staggered shifts may be possible for personnel performing duties which are necessary to be performed on-site but perhaps less sensitive to being accomplished only within core business hours. As possible, management will identify opportunities for staff to work outside core business hours as a strategy of limiting exposure. Regardless of changes in start and end times of shifts, Jordan-Elbridge CSD will ensure that employees are provided with their typical or contracted minimum work hours per week. Staggering shifts requires:

1. Identification of positions for which work hours may be staggered

Operations & Maintenance	O & M workers will be allowed to work 2 nd shift if / when it is necessary to reduce staffing numbers working 1 st shift.
Office Staff	The district will staff offices on an as needed basis to ensure the district and buildings are running properly.
Food Service Department	The Food Service Department will work as needed to ensure students receive proper healthy nutritional meals consistent with USDA guidelines, whether learning in-person or remote.
Transportation Department	The Transportation Department may work as needed to ensure the safety of students, its fleet, and may be needed to ensure food is delivered to students, if needed.

2. Approval and assignment of changed work hours per the approval of the superintendent
3. SRO and other staff may be called upon to distribute supplies to families, such as student chrome books, hotspots, and meals as determined necessary by the nature of the school closure

Personal Protective Equipment

The use of personal protective equipment (PPE) to reduce the spread of infectious disease is important to supporting the health and safety of our employees and contractors. PPE which may be needed can include:

- Masks
- Face shields
- Gloves
- Disposable gowns and aprons

Note that while cleaning supplies are not PPE, there is a related need for cleaning supplies used to sanitize surfaces, as well as hand soap and hand sanitizer/sanitizing wipes. The Coronavirus pandemic demonstrated that supply chains were not able to keep up with increased demand for these products early in the pandemic. As such, we are including these supplies in this section as they are pertinent to protecting the health and safety of our employees and contractors.

Protocols for providing PPE include the following:

1. Identification of need for PPE based upon job duties and work location
2. Procurement of PPE
 - a. As specified in the amended law, public employers must be able to provide at least two pieces of each required type of PPE to each essential employee and contractor during any given work shift for at least six months
 - b. Public employers must be able to mitigate supply chain disruptions to meet this requirement
3. Storage of, access to, and monitoring of PPE stock

- a. PPE must be stored in a manner which will prevent degradation
- b. Employees and contractors must have immediate access to PPE in the event of an emergency
- c. Head custodians of district buildings each have the same materials on-hand
- d. The supply of PPE must be monitored to ensure integrity and to track usage rates

All staff and students are required to wear a face covering (including over the mouth and nose) at all times while on the school campus. An exception is made when individuals are consuming food or beverage at snack & meal times. The Jordan-Elbridge Central School District will coordinate with the Cayuga Onondaga BOCES and its over 20+ vendors to procure necessary PPE. Materials will be stored in the middle school/district office basement, which has the capacity to store materials for the entire district for over a significant time period. The Buildings and Grounds director, along with the building head custodians and support staff, will track use of these materials and provide as requested and/or requested.

Staff Exposures, Cleaning, and Disinfection

Staff Exposures

Staff exposures are organized under several categories based upon the type of exposure and presence of symptoms. Following CDC guidelines, we have established the following protocols:

- A. **If employees or contractors are exposed** to a known case of communicable disease that is the subject of the public health emergency (defined as a 'close contact' with someone who is confirmed infected, which is a prolonged presence within six feet with that person):
 - 1. Potentially exposed employees or contractors who do not have symptoms should remain at home or in a comparable setting and practice social distancing for the lesser of 14 days or other current CDC/public health guidance for the communicable disease in question.
 - a. As possible, these employees will be permitted to work remotely during this period of time if they are not ill.
 - b. The superintendent must be notified in these circumstances and will delegate who is responsible for ensuring these protocols are followed
 - c. See the section titled Documentation of Work Hours and Locations for additional information on contact tracing
 - 2. CDC guidelines for COVID-19 provide that critical essential employees may be permitted to continue work following potential exposure, provided they remain symptom-free and additional precautions are taken to protect them, other employees and contractors, and our constituency/public.
 - a. Additional precautions will include the requirement of the subject employee or contractor, as well as others working in their proximity, to wear appropriate PPE at all times to limit the potential of transmission.
 - b. In-person interactions with the subject employee or contractor will be limited as much as possible.
 - c. Work areas in which the subject employee or contractor are present will be disinfected according to current CDC/public health protocol at least every hour, as practical. See the section on Cleaning and Disinfection for additional information on that subject.
 - d. If at any time they exhibit symptoms, refer to item B below.

- e. The superintendent must be notified in these circumstances and will delegate who is responsible for ensuring these protocols are followed

B. If an employee or contractor exhibits symptoms of the communicable disease that is the subject of the public health emergency:

1. Employees and contractors who exhibit symptoms in the workplace should be immediately separated from other employees, customers, and visitors. They should immediately be sent home with a recommendation to contact their physician.
2. Employees and contractors who exhibit symptoms outside of work should notify their supervisor and stay home, with a recommendation to contact their physician.
3. Employees should not return to work until they have met the criteria to discontinue home isolation per CDC/public health guidance, including guidance from the superintendent, and have consulted with a healthcare provider.
4. Jordan-Elbridge CSD will not require sick employees to provide a negative test result for the disease in question or healthcare provider's note to validate their illness, qualify for sick leave, or return to work; unless there is a recommendation from the CDC/public health officials to do so.
5. CDC criteria for COVID-19 provides that persons exhibiting symptoms may return to work if at least 24 hours have passed since the last instance of fever without the use of fever-reducing medications. If the disease in question is other than COVID-19, CDC and other public guidance shall be referenced.
6. The superintendent must be notified in these circumstances and will delegate who is responsible for ensuring these protocols are followed

C. If an employee or contractor has tested positive for the communicable disease that is the subject of the public health emergency:

1. Apply the steps identified in item B, above, as applicable.
2. Areas occupied for prolonged periods of time by the subject employee or contractor will be closed off.
 - a. CDC guidance for COVID-19 indicates that a period of 24 hours is ideally given before cleaning, disinfecting, and reoccupation of those spaces will take place. If this time period is not possible, a period of as long as possible will be given. CDC/public health guidance for the disease in question will be followed.
 - b. Any common areas entered, surfaces touched, or equipment used shall be cleaned and disinfected immediately.
 - c. See the section on Cleaning and Disinfection for additional information on that subject.
3. Identification of potential employee and contractor exposures will be conducted
 - a. If an employee or contractor is confirmed to have the disease in question, a district representative, such as a building principal, supervisor, and/or the superintendent or his/her designee should inform all contacts of their possible exposure. Confidentiality shall be maintained as required by the Americans with Disabilities Act (ADA).
 - b. Apply the steps identified in item A, above, as applicable, for all potentially exposed personnel.
4. The superintendent must be notified in these circumstances and will delegate who is responsible for ensuring these protocols are followed

We recognize there may be nuances or complexities associated with potential exposures, close contacts, symptomatic persons, and those testing positive. We will follow CDC/public health recommendations and requirements and coordinate with our local public health office for additional guidance and support as needed.

Cleaning and Disinfecting

CDC/public health guidelines will be followed for cleaning and disinfection of surfaces/areas. Present guidance for routine cleaning during a public health emergency includes:

1. As possible, employees and contractors will clean their own workspaces in the beginning, middle, and end of their shifts, at a minimum.
 - a. High traffic/high touch areas and areas which are accessible to the public/constituents will be disinfected regularly throughout the day, or whenever they are visibly soiled
 - b. The building assigned custodial staff is responsible for cleaning common areas:
 - i. High Touch Surfaces – Multiple times throughout the day.
 - ii. Classrooms – Nightly and as needed
 - iii. Bathrooms – Hourly
 - iv. Common Areas – Daily
 - v. Busses – In between routes
2. Staff tasked with cleaning and disinfecting areas will be issued and required to wear PPE appropriate to the task.
3. Soiled surfaces will be cleaned with soap and water before being disinfected.
4. Surfaces will be disinfected with products that meet EPA criteria for use against the virus in question and which are appropriate for that surface.
5. Staff will follow instructions of cleaning products to ensure safe and effective use of the products.

Employee and Contractor Leave

Public health emergencies are extenuating and unanticipated circumstances in which Jordan-Elbridge CSD is committed to reducing the burden on our employees and contractors. The *Families First Coronavirus Response Act* provided requirements related to the COVID-19 pandemic, which form the policies outlined below. This policy may be altered based upon changes in law or regulation, as applicable.

It is our policy that employees of Jordan-Elbridge CSD will not be charged with leave time for testing. Employees will be provided with up to two weeks (80 hours) of paid sick leave at the employee's regular rate of pay for a period which the employee is unable to work due to quarantine (in accordance with federal, state, or local orders or advice of a healthcare provider), and/or experiencing symptoms and seeking medical diagnosis.

Further, Jordan-Elbridge CSD will provide up to two weeks (80 hours) of paid sick leave at two-thirds the employee's regular rate of pay if the employee is unable to work because of a bona fide need to care for an individual subject to quarantine (pursuant to federal, state, or local orders or advice of a healthcare provider), or to care for a child (under 18 years of age) whose school or child care provider is closed or unavailable for reasons related to the public health emergency, and/or the employee is experiencing a substantially similar condition as specified by the CDC/public health officials based on the approval by the Board of Education when applicable.

This provision may be modified if an employee is able to effectively work remotely and the need exists for them to do so.

Additionally, Jordan-Elbridge CSD will provide up to an additional 10 weeks of paid expanded family and medical leave at two-thirds of the employee's regular rate of pay where an employee, who has been employed for at least 30 calendar days by Jordan-Elbridge CSD, is unable to work due to a bona fide need for leave to care for a child whose school or child care provider is closed or unavailable for reasons related to the public health emergency on the approval by the Board of Education when applicable. This provision may be modified if an employee is able to effectively work remotely and the need exists for them to do so.

Additional provisions may be enacted based upon need and the guidance and requirements in place by federal and state employment laws, FMLA, executive orders, and other potential sources.

Contractors, either independent or affiliated with a contracted firm, are not classified as employees of Jordan-Elbridge CSD, and as such are not provided with paid leave time by Jordan-Elbridge CSD, unless required by law.

Documentation of Work Hours and Locations

In a public health emergency, it may be necessary to document work hours and locations of each employee and contractor to support contact tracing efforts. Identification of locations shall include on-site work, off-site visits. This information may be used by Jordan-Elbridge CSD to support contact tracing within the organization and may be shared with local public health officials.

Housing for Essential Employees

There are circumstances within a public health emergency when it may be prudent to have essential employees lodged in such a manner which will help prevent the spread of the subject communicable disease to protect these employees from potential exposures, thus helping to ensure their health and safety and the continuity of Jordan-Elbridge CSD's essential operations.

If such a need arises, hotel rooms are expected to be the most viable option. If hotel rooms are for some reason deemed not practical or ideal, or if there are no hotel rooms available, Jordan-Elbridge CSD will coordinate with the Town of Elbridge and/or other emergency management offices to help identify and arrange for these housing needs. The superintendent and/or his/her designee will coordinate this effort.
